

# Learn - Getting Started with SiteMesh

SiteMesh is **easy** to learn. 5 minutes to setup, and 10 minutes to start being useful.

After finishing this trail you will,

- Have SiteMesh up and running
- Be proficient with the most powerful aspect of SiteMesh, decorators
- See for yourself how SiteMesh can save you time and money

And yes all within 15 minutes! Actually faster if you download the [SiteMesh Starter Kit](#).

These tutorial assume a basic understanding of JSP, Java and Web Application Development.
