

# Download

If you are new to SiteMesh browse over to [Getting Started with SiteMesh](#) which explains how to setup SiteMesh in your web application.

SiteMesh build and source code are available at [GitHub](#). The jar files are also located on the [Maven Repository](#).

SiteMesh 3 is in the works. Please try it out and provide feedback.

## Current Stable Release

### Version 2.5

Still to compile but you can do it compile yourself from source from [GitHub](#).

### Version 2.4.2

- Date: 4/16/2009
- [Changelog](#)
- Downloads: [JAR](#)

[sitemesh-example.war](#) - a pre-packaged web project with many examples of SiteMesh in action.
